

# Hyena Pan

TENTED CAMP

## Classic Botswana

Explore the exhilaration of the  
NG18 Private Concession in Khwai

## Introduction

Hyena Pan Tented Camp is a tranquil tented camp situated in a private concession area NG18, better known as Khwai. This 350,000 hectare private concession falls within the Okavango Delta World Heritage Site. The tented camp borders the Moremi National Park and the Khwai River and is positioned 12km's North of the Khwai River, within Cathedral Mopane forest overlooking a natural Mopane Pan. The pan is a constant water supply to many species of birds and animals year round, the rains in December to March flood the area creating an enormous water feature enticing Hippo, Elephant and Buffalo, not to mention the exceptional array of water birds. As the pan shrinks from March through to late November we pump water to the pan from one of our solar-powered boreholes.

## At a glance

- Small reference library
- Curio shop
- Wi-Fi facilities at reception area
- Open-air Boma overlooking a water-hole
- Rim-flow splash pool on deck
- Water-hole which is lit up at night

## What's on offer?

Hyena Pan's flexibility affords guests the opportunity to choose how they would like to spend their day. Guests have a range of activities to choose from, and may have the privilege of spotting one of the many predators in the area such as leopard, wild dog, lion and spotted hyena. Various other species frequent the area - kudu, waterbuck, red lechwe, eland, impala, roan, buffalo, water hog and many more. One can enjoy a morning or afternoon game drive in an open 4x4 game drive vehicle exploring the 350,000 hectare private concession which allows for excellent game-viewing exclusively to Hyena Pan guests. Alternatively take an easy drive along the renowned Khwai River, where there is perhaps an opportunity to photograph one of the many graceful leopards who are habituated to the area.

Hyena Pan boasts an underground hide, a ground level, hidden view point, positioned facing an extremely private and special waterhole within our private concession area. Spectacular photographic opportunities from ground level are there for the patient, absolute quiet and absolute privacy - a very unique experience awaits at this amazing venue. Elephant frequent this water source, as do Kudu and Roan Antelope. Giraffe and Warthog are regular visitors, whilst Buffalo and Eland are more special visitors. An afternoon spent in this tranquillity is a rare treat.

Elevation options are also available; take an afternoon or a morning 'atop' one of our 5 meter high semi-thatched elevated platforms. View the regular visitors of elephant and antelope from one of these elevated platforms; a pack tea taken along makes the experience complete. Although for the slightly more adventurous, a night out sleeping under the Milky Way in all its glory, with mosquito nets and the full African sky is an added option. Each deck comes with twin beds and ablution facilities.

A special feature of this private concession is the ability to walk; relaxed and informative game walks are an option to Hyena Pan guests. Exhilarating emotions surge through the walker as the opportunity to walk up, within a safe distance, of animals and birds who call Hyena Pan home becomes a reality.
